Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 1-6, 9, 13-15, 18-21 are objected to because of the following informalities: claim 1 should be further amended to set forth the selective movement of the projector to project upon either the interior or exterior screen because the claim language as is has the projector "emitting a light beam... toward an opening formed at a portion near a rear end of the vehicle". Appropriate correction is required.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by
DE19938330A1.

DE 19938330A1 discloses a display system comprising:

A projector (1) mounted inside a vehicle for projecting an image through an open hatch of the vehicle;

An exterior screen (15) for receiving the image;

A housing frame unit (8, 12, 14) mounted near the hatch for accommodating the screen.

The screen may be stretched roller material (Page 8 Lines 6-7). Such materials, as used in roller blinds exhibit elastic properties and thus

Mirrors may be provided in the projection path (Page 7 Lines 20-30)

The projection device may be encompassed with television or computer systems.

As to claim 16 "light shield" is a very broad term and is met by the structure frame system (8) attached to a side of the screen (15) See figure 5. Page 8 Lines 7-11 set forth the use of covering material for shielding the screen from stray light effects.

Allowable Subject Matter

2. Claim 17 is allowed.

Response to Arguments

3. Applicant's arguments filed 6/20/05 have been fully considered but they are not persuasive. Arguments have been addressed in the body of the rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2851

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
